An official report of the wreck of the small steamer Milavie, property of Milton Smith, of Rainier, was filed in the custom house yesterday. The report sets forth that the wreck was caused by a fire originating from a defective ash pan, damaging the vessel to the amount of \$900 before she was scuttled. The lost steamer had been used as a fish patrol boat and rumors were circulated at the time she was wrecked that parties engaged in illegal fishing had set her on fire.

Fares on the steamer Sue H. Elmore between Astoria and Tillamook Bay have been reduced to \$3.50. The Elmore is by far the best appointed passenger steamer ever on this route. The Grimes divorce case was compromised last evening in the court room. It was agreed that Mrs. Grimes should have the home of the couple and 2½ acres of land, and Mr. Grimes took 4 acres of land for his division. Each party will pay his own costs and attorneys' fees. They had been married 27 years and have six children—three boys and three girls. The girls, aged respectively, 16, 12 and 10, will live with their mother. Their home is at Seaside. The divorce was granted to Mrs. Grimes and this also results in a divorce for Mr. Grimes.

The New Style Chop House on Eleventh street closed last night for a few days to await completion of repairs. The work of the carpenters on the building interfered with the proprietor in catering to his many customers and it was decided to close until the work is completed. This is one of the best places in the city to get a good meal and the proprietor says when the rearrangement of the building is completed he will be able to supply his patrons in a better manner than ever before. If the weather does not interfere the improvement will be completed in two or three days—not exceeding a week, at least.

B. C. Lamb, of Tillamook came up on the steamer Sue H. Elmore last evening. He reports Tillamook in good condition. He says that the imports and exports have been larger the past season than ever before, and there are many things contributing to the better outlook for the place. The J. A. Taft Lumber Company is figuring on shipping a large quantity of lumber from that point. It is expected to ship considerable car stock, as the forest there supplies splendid material for this purpose. The demand is also increasing for spruce. A large inflow of immigration is increasing the population at a rapid rate. There is considerable demand for farming lands. Dairying is also building up. The Tillamook Dairying Association has just completed its new plant and has the best butter factory in Oregon. There is also talk of building a condensed milk factory at the place. Speaking of politics in that county, Mr. Lamb said that there were only two tickets out—Republican and Democratic—and that everything looked favorable toward the election of the Republican ticket. It has only been in unsettled times that the Democrats have succeeded and at this time the Republican administration is thoroughly satisfactory.

A large party went over to Knappa-ton last evening on the steamer Electro to attend a ball to be given by members of the local Odd Fellows Club.

Democrats are now busy explaining that it is a "non-partisan citizens' ticket."

Speaking of the statement made that there are no drugstores kept open all night in Astoria a prominent druggist last night said: "The physicians all have emergency medicine cases; there is no case that they cannot handle safely without getting into a drugstore. The drugstores find that it does not pay them to remain open later than 11 o'clock; later means a great loss. Night after night there would be no calls and often they would be for frivolous purposes. It is the experience of druggists who have clerks sleep in the store and have night bells, that men will often come and arouse them out of bed at 3 or 4 o'clock in the morning for a 5-cent purchase. They have been known to do so for a postage stamp."

THE SOCIALISTS' ACTION.

Speaking of the action of the Socialists Thursday night, a prominent citizen yesterday said:

"The publicly announced decision of the Socialist party, not to place a ticket in the field, is perfectly proper and in full accord with the principles of American freedom and liberty of speech. However, when the party, through its recognized leaders, announces the reason therefor then the public has something to say in the matter. Especially so when a glaring statement is made that the Republican party was seeking to use the Socialists to further its own political ends."

"In view of the fact that it is openly claimed that the Socialists are going to stand shoulder to shoulder with the non-partisan, otherwise Democratic ticket, with an eye to the division of the spoils in case of success at the polls, the statement embodied in the resolution adopted, relative to the Republican party may be taken with a grain of salt."

"I have always labored under the impression that the Socialists were above party considerations and that their promulgated views of a higher and nobler nature, would preclude the idea of them standing in with any party for the sake of political power, or financial gain. Politics, however, makes strange bed-fellows and there is no law, civil or moral, that prevents the Socialist from trailing where he lists."
